LIBRARIAN'S REPORT

More of our townspeople are taking advantage of the quick and easy way by which books on special subjects, which the ordinary small library does not usually possess, may be obtained from the State Library at Concord. The librarian is glad to order them speedily at any time for anybody. The Goshen church reading group has been thus supplied during the summer.

About forty-five volumes of the latest fiction have been purchased this year.

The New Hampshire State Library Commission has also forwarded its splendidly chosen contribution of juveniles for 1937, fifteen in number, of a value exceeding \$25. Great talent in text and illustrations are evident throughout these beguiling books.

School Board of Goshen.

SUPERINTENDENT'S REPORT

To the School Board of Goshen:

I hereby submit my first annual report as your superintendent of schools.

I, having taken over the work as your superintendent last September, fear that I shall not be able to make as intelligent a report as should be, but I fear even more that due to the difference in organization, I shall make errors in customs.

I found that Goshen schools had been well organized with two very able teachers and forty-three pupils, who are interested in their work, and eager to learn. Goshen is certainly fortunate to have such efficient teachers. Reading in the lower grades is very well developed, and many of the pupils in the upper grades think clearly and quickly.

I have notice from Headmaster Perkins that Richard Cook, Austin Nelson and Lois Nelson are included on the honor roll of Towle High School for the first half year 1937-1938.

The question of state aid was well covered in the 1936 report. May I, however, call to your attention a few items in this connection.

The following conditions force Goshen to raise more money without securing more material for the two local schools. We must be careful that we do not try to meet these new demands by denying the children in the local schools what is needed. The increase in valuation, (state equalized), has deducted from the "State Aid" \$336.22 a year. The last legislature did not grant funds enough to meet the needs of the state aided districts. A reduction had to be made on all checks to the districts, those in the greatest need, Goshen's check for next year will be cut \$46.80 as her part. We are glad to see more and more of our pupils attend high school, but the cost of high school tuition has to be paid in full from local taxation.

The state allows \$42.94 for books and \$55.85 for supplies this year. These amounts are based upon the number of pupils in the schools. This allows but \$1.00 per pupil for books and \$1.30 for supplies. No allowance is made for teachers' copies or materials. The smaller schools are at a great disadvantage because of the short recitation periods and the long periods for study for the pupils, during which time they need more books

and supplies to make up for the lack of libraries, etc. To hire able teachers and not give them good supplies is similar to hiring men to remove snow using crooked sticks for shovels. I believe small amounts should be added to those allowed by the state for these items.

It might be well for us to study some plan to divide our schools to have four lower grades in one and four upper grades in the other. There are many advantages in such a plan. A transportation bus could be run the length of Goshen, leaving the lower grades at one school building and the upper grades at the other. This plan is now used in Cornish, Unity and Lempster. The plan has some advantages over the centralized school. The present buildings can be used, the lower grades are separated from the upper grades in play as well as in study, and each part of the district is near a school.

At the present time the state is not financially in a position to encourage progress in local education, but if the next session of the legislature is more sympathetic with the needs of the children in the state aided districts, I feel quite sure that the state would approve the plan, and carry the larger part of the added expenses,

I trust that soon I may become more conversant with your customs, problems and needs.

I have found the Goshen School Board and the teachers very patient and helpful.

Respectfully submitted,

WALTER L. MASON,
Superintendent of Schools.
